

HOG

HIGHLY OPTIMIZED GEAR

2019.4 Consumer Guide
EDGE-GEAR.COM

Edge-Hog operates a very lean organization and we provide dealers and end users the support they need and deserve as customers. When you communicate with us you'll be speaking with those who helped with product design and development and who directly support your dive business. Our pricing never reflects unnecessary margins that do not contribute to the mission of the company.

We would like you to meet the team that makes EDGE-HOG operate on a daily basis.

OPERATIONS MANAGER

Chris Roberts

Chris operates out of our Macon, GA. warehouse. He enjoys spearfishing, deep water wrecks, and occasional fun dives with friends and family.

Chris began diving after he retired from the US Army and worked in Scuba retail before coming to EDGE-HOG in 2018.

As a SDI/TDI Course Director, Chris' favorite course to teach is SDI Divemaster and also as an avid Spearfisher he enjoys teaching the Hunter Gather course.

Chris enjoys helping our partners be more profitable in their sales efforts. He looks forward to assisting you in finding ways EDGE-HOG Dive Gear can be a significant and rewarding part of your diving success.

DIRECTOR SALES DEVELOPMENT

Bob Collins (USN Retired)

Bob began diving in 1970 with the US Navy and retired in '94. He has dove from North to South poles and many places in between.

Bob works with the Navy and Army helping PTSD and other handicap service members through Scuba Therapy with the Purple Fins Project.

As a SDI Instructor Trainer and PADI IDC Staff Instr. he has certified all levels. His favorite course is teaching the IDC/IE for new instructors.

Bob understands the demands of shop ownership as well as being a successful long term independent instructor.

Contact Bob for business guidelines and dealership opportunities.

We are eager to partner with dive professionals of all facets and we never ask you to make an order commitment that would negatively impact the success of your business. If you currently operate a successful dive operation you will find working with us a welcome change of pace. We strive to offer guidelines, pricing structures and general policies that are easy to understand. These help create the maximum value for your business without impeding success.

New 2019 EDGE-HOG Package Builder Guides

Throughout the EDGE-HOG 2019 Catalog you will find our New Package Builder Guides. They can assist with bundling gear that divers often buy together.

The basis for these guides comes from our experience with our dealers, pro-affiliates and their equipment orders in 2017 - 2018.

The Package Builders offer exceptional savings when buying dive gear together. As a bonus to getting a great deal on essential gear, divers can also add optional "nice-to-have" items they may need.

For example: A "New Diver" package would include a mask, snorkel and fins. This package would include optional items like boots, gloves and a gear bag.

Please forward this consumer catalog to your students and customers. They will be able to make an informed decision based on what most divers buy for their dive kits.

Look for package builder guides at the beginning of the following sections:

- Mask, Snorkel and Fins
- Recreational Scuba Gear
- Tech Regulators
- Total Buoyancy Control System

These guides include products found in those areas of use.

We know you will find the new 2019 catalog to be helpful and informative.

HOG Dive Gear is committed to providing dive industry customers a line of unique, high quality, performance oriented products, at a value oriented price. This makes us different from the typical dive manufacturer in many ways. The Hog brand has been built on dive experience, equipment performance, reliability and word of mouth, not just paid advertising dollars.

From the beginning and continuing today HOG dive gear’s line of products still leads the way in the technical dive industry. Divers have become familiar with our brand’s reputation for excellence from long-time Cavern, Cave and Wreck divers. Our brand of EDGE dive gear is recognized today by instructors as cost effective and highly featured Recreational dive equipment.

EDGE-HOG Gear is sold worldwide with operations in Asia, Australia, South and Central America, plus various European counties and across the United States with over 60 dealers and through hundreds of Scuba Professionals.

EDGE & HOG Masks

EDGE - HOG Masks are each selected to offer the best in comfort, fit and performance for the savvy diver. EDGE and HOG offers multiple unique designs, sizes and features. These allow for the needs, desires and preferences of each diver to be met with our value oriented

HOG Frameless (HOG 2044)

- Fits most face sizes
- Large single front tempered glass lens with tear drop shape
- Flat black silicone skirt, no frame
- Uses narrow 5/8 inch wide silicone mask strap
- Protective plastic carrying case included (5.5oz weight)

Specifications

Size: 20cm wide x 10cm tall x 7cm deep (Out of

HOG TECH Low Profile (HOG-0045)

- Fits small to average faces
- Perfect as a pocket backup mask
- Ultra low profile two lens tempered glass design with Clear or new Tinted. Tinted Mask only in All Black.
 - Black Rubberized Frame with colored trim accents
 - Red (R), Blue (U)
 - Black silicone skirt
- Uses narrow 5/8 inch wide silicone mask strap
- Protective plastic carrying case included (5.5oz weight)
- Corrective optical replacement lenses available
- Left and Right eye - Diopters from -1.5 to -6.0 in .5 increments

- HOG PRECISION TECH (HOG0608)

EDGE Max Vision Ultra (EDG-0111)

The EDGE Max Vision Ultra mask is a medium volume two window mask with an impressive field of view. The tear drop shaped angled lenses allow the diver to see down and out to the sides assuring none of the adventure will be missed.

- Fits most face sizes
- Tear drop shaped two window tempered glass lens design
- Clear silicone skirt with clear frame and colored trim accents
 - Blue (U), Black (B) and Hi-Vis Yellow (Y) trim colors
 - Black silicone skirt with black frame model available (BB)
- Uses narrow 5/8 inch wide silicone mask strap
- Protective plastic carrying case included (5.5oz weight)

Specifications

Size: 17.5cm wide x 10.5cm tall x 8cm deep (Out of carrying case)

Weight: 8.25oz / .234kg (Out of carrying case)

**EDGE Max Vision Ultra “HD” (EDG-0363)**

THE EDGE Ultra HD takes the excellent Max Vision Ultra mask and adds Hi-definition optics. Utilizing special lens coatings inside and out. Improves the intensity of colors and contrast of the underwater seascape.

- All the features of the Max Vision Ultra
- Violet outer lens coating improves color rendition
- Yellow inner lens coating increases sharpness and contrast
- Available in Black Silicone skirt w/Black frame only

**EDGE Panoramic Ultra (with optional purge valve)**

The EDGE Panoramic Ultra is a three window mask with extreme viewing sight lines. For divers who may suffer claustrophobia in lower volume masks or those who just prefer a wider viewing lens the Panoramic Ultra is the solution.

- Fits average to larger faces
- Large three pane tempered glass lens
- 2 Colors with Purge **EDG-0603** (All Black or Clear w// Black Trim)
- 2 Colors without Purge **EDG-0113** (All Black or Clear w// Blue Trim)
- Uses narrow 5/8 inch wide silicone mask strap
- Protective plastic carrying case included (5.5oz weight)

Specifications

Size: 18cm wide x 10cm tall x 8cm deep (Out of carrying case)

Weight: 8.87oz / .251kg (Out of carrying case)

**EDGE Stealth 2 Frameless (EDG-0421)****Black-Clear-Revo (Mirrored)**

- Low-Profile design with a wide field of vision
- Folds flat for easy carrying: Fits in BCD pocket
- High-Grade silicone skirt bonded directly to lens
- Single tempered glass lens
- Low internal volume for effortless clearing
- Double feathered edge skirt
- Quick-Adjust strap buckles
- Buckles molded directly to skirt for flexible fit and reduced drag
- Protective plastic carrying case included (5.5oz weight)

Edge Optix (Edg-0605) This 2 lens mask is a high quality silicone mask designed to fit most faces and diving styles. The Frame is crafted to easily change out Lenses for those requiring optical correction.

- Includes FREE Protective Mask Box
- 2-window design with wide field of front vision
- Double-feathered silicone mask skirt ensures a secure seal and comfortable fit
- Low volume design for snug fit and easy clearing
- Durable tempered glass is scratch and shatter resistant

Corrective Lenses available for Optix Style in Clear Glass.

- Corrective optical replacement lenses available
- Left and Right eye - Diopters from -1.5 to -8.0 in .5 increments

Clear silicone skirt with Blue (U) and Hi-Vis Yellow (Y)

Edge Reader Mask

EDG-PL542-xx

- +1.75
- +2.25
- +2.75

EDGE IMAGE and CONTRAST (Edg- 0606 and Edg-0607)

These EDGE masks follow the design form of the Vision. Their perfect skirt and low volume makes them perfect for almost any diver.

- The IMAGE Gives the diver some color correction during his dive.
- The CONTRAST Gives the diver higher definition to help him spot fish or for added enjoyment.
- Clear silicone skirt with Black (B), Blue (U) and Hi-Vis Yellow (Y)
- Black Shirt / Black Frame only.
- Packed in poly zip lock bag
- Corrective optical replacement lenses available
- Left and Right eye - Diopters from -1.5 to -8.0 in .5 increments

EDGE Manta EDG-0588

The latest addition to the EDGE family of masks is The EDGE Manta single lens mask. It features extremely soft silicon and a wide field of vision.

- Fits average to larger faces
- Large three pane tempered glass lens
- Clear silicone skirt with colored trim accents
 - Blue (U), and Hi-Vis Yellow (Y) trim colors
- Uses narrow 5/8 inch wide silicone mask strap
- Packed in poly zip lock bag

**EDGE Goby Kids Mask EDG-0367**

Finding a dive and snorkeling appropriate mask for the little ones can sometimes be difficult but look no further than the EDGE Goby mask. The Goby's extra small silicone skirt and tear drop shaped single tempered glass lens make it much better and safer than big box bought masks.

- Fits most children's faces
- Single tear drop shaped tempered glass lens
- Clear silicone skirt with clear frame and Blue (U) or Hi-Vis Yellow (Y) trim
- Uses 5/8 inch wide silicone mask strap
- Packed in poly zip lock bag

EDGE Minnow Kids Mask EDG-0079

Edge Minnow mask is a two window design mask that fits a child's face. Has a high quality silicone feathered edge skirt, tempered glass lenses and easily adjustable silicone mask strap.

- Fits most children's faces
- Two Lens tempered glass
- Clear silicone skirt with clear frame and Blue (U) or Hi-Vis Yellow (Y) trim
- Uses 5/8 inch wide silicone mask strap
- Packed in poly zip lock bag

EDGE and HOG Snorkels

Whether a diver wants unobtrusive simplicity or the driest breathing possible from their snorkel, EDGE and HOG have a model to meet their needs

Costa Dry Snorkel (Edg-0554)

The Edge Costa Dry Snorkel is designed to deliver maximum performance for snorkelers and scuba divers. While snorkeling you can dive down without water entering the snorkel top. The soft corrugated flex hose adjusts for a perfect fit. The ergonomic mouthpiece is very comfortable. It is made of high quality silicone and has amazing shock and wear resistance. An Easy Purge valve below the mouthpiece allows you to easily clear water from the tube.

Snorkel Features:

- Ergonomic mouthpiece for all day comfort
- Exhaust valve for easy purging
- 100% dry top design keeps the water from entering the snorkel top when snorkeling or diving
- Flex hose designed to perfectly adjust to fit to the side of your head
- Adjustable snorkel keeper
- Mouthpiece and flex hose is made of high quality silicone that is super soft and comfortable
- Packed in poly zip lock bag

Aero Semi Dry (Edg-0558)

The Edge Aero Snorkel has a splash-proof dry guard that virtually eliminates water intake through the top of the Tube. If any water enters the snorkel tube it can easily be blown out with the Easy Purge Systems One-Way Valve at the bottom of the snorkel tube.

- Quick release snorkel keeper included
- New streamlined semi-dry top
- Guards against water entering at the surface
- One-way purge valve for effortless clearing
- Large bore, tapered upper tube
- Flexible silicone lower tube, w/purge
- Replaceable Silicone mouthpiece/ Standard size
- Packed in poly zip lock bag

HOG Stealth 2 (Edg-0366)

Not everyone wants a bulky or complicated snorkel. For those wanting a snorkel for occasional use but that still breathes easy there is the EDGE Stealth 2.

- Traditional J tube airway shape and design
- Curved rigid rubber airway follows the contour of the users head
- Tech Black colored airway and black silicone mouthpiece assembly
- Packed in poly zip lock bag

EDGE Hydra Dry Kids Snorkel (Edg-0365)

Kids need not worry about breathing water or diving down to explore the undersea landscape with the Hydra Dry Kids. The Hydra Dry Kids uses the same dry sealing top technology as the EDGE Hydra Snorkel. It uses a smaller mouthpiece and airway better suited for the anatomy of a kid.

- Water deflecting sealing valve dry top assembly
- Colored rigid plastic airway curved to follow the users head contour
- Ultra small silicone mouthpiece with water trapping reservoir
- Safety whistle integrated into mouthpiece assembly
- Colors available Blue (U) or Hi-Vis Yellow (Y)
- Packed in poly zip lock bag

EDGE FLEX Open Heel Fins (Edg-0551)

Lightweight, high performance dual-composite fin blade for ultimate comfort, efficiency and performance. Featuring full-length power rails and a central flex channel.

The Flex Open Heel Fin's blade is a Flexible Thrust Channel that directs water off the tip of the blade for improved power and efficiency.

Open heel foot pocket is held comfortable and secure with our unique, highly stretchable silicone heel strap

5 Sizes to choose from for a perfect fit..

- Ultimate comfort, efficiency and performance
- Composite Material: Blend of Thermal Plastic Rubber (TPR) and Polypropylene
- Flexible Power Thrust Channels & Side Rails
- Blade Design Provides Uncompromising Power and Efficiency
- Blade Power Vents Reduce Stress while Accelerating Water Over the Blade
- Oversized Blade Design for Increased Thrust and Propulsion
- Foot Pocket Design Significantly Reduce Drag
- Easy On and Off
- Bungee style strap with Squeeze Style Quick-Release Buckles
- Large Pull-Tab Holes in Straps for Grip

Yellow Available in S,M,L only

See sizing chart on page 45

HOG TECH 2 Fins (HOG-0160)

For divers that prefer a rigid rubber Rocket style fin. The fin includes a stainless steel spring strap makes for easy on and off. This fin is vented in the High Pressure area to reduce fatigue. One of the shortest fins of its kind for maneuverability.

- Made from 100% rubber
- Nylon sleeve coated stainless steel spring strap
- Side Ridges for maneuverability and stability
- Highly popular among technical divers

See sizing chart on page 44

EDGE Maui Snorkeling Fins (EDG-0362)

Open-heel design snorkeling fins with an easily adjustable heel strap. Made to wear bare foot or with a thin neoprene sock. The soft comfortable foot pocket is attached to a long composite blade and dual fin rails for enhanced snap and thrust.

- Designed for Snorkeling
- Channel Thrust Technology
- Side rails improve stability.
- Easy adjust quick-release buckles
- Available in 2 Adult Sizes and 3 Colors (Black, Blue and Yellow)

EDGE Cabo Snorkeling Fins

Highly stylish and comfortable open-heel snorkeling fins.

Designed for Snorkeling

- Easy adjust quick-release buckles
- Available in 2 Sizes

Adult (**Edg-0016**)

Child (**Edg-0015**)

- Available in Black, Blue, and Yellow

EDGE Flex Full Foot Fins (Edg-0559)

Lightweight, high performance dual-composite fin blade for ultimate comfort, efficiency and performance. Featuring full-length power rails and a central flex channel.

- Ultimate Comfort, Efficiency and Performance
- Composite Blend of Thermal Plastic Rubber (TPR) and Polypropylene
- Flexible Power Thrust Channels & Side Rails
- Blade Design Provides Uncompromising Power and Efficiency
- Blade Power Vents Reduce Stress while Accelerating Water Over the Blade
- Oversized Blade Design for Increased Thrust and Propulsion
- Foot Pocket Design Significantly Reduce Drag
- Available in Black, Blue and Yellow

Cabo Fin Straps Kids (Edg-0043)

Cabo Fin Straps Adult (Edg 0042)

Silicone Mask Straps (Edg-0391) C or B

EDGE Flex Fin Bungee Strap (Edg-0555)

- 3 Sizes Available XS-SM, MD. & LG-XL
- Replacement for Flex FIN and Transcend Fin
- Sold individually

**SS C-Clamp Spring Strap Pair (Edg-0416)
SM, Med, Lrg and XL**

EDGE Transcend Fin Strap Kit (Edg-0393)

EDGE Neo6 Tall Zipper Boot Edg-0148)

A top choice among active divers, these tough zipper boots provide maximum thermal protection and foot support. The high-traction sole provides real stability, especially under the heavy load of scuba gear. The beefy zipper is backed up by a special Water Entry Barrier that prevents water exchange and helps keep feet toasty warm.

- 6mm Superior Stretch Nylon II Neoprene
- Durable traction sole
- Glued & sewn seams
- Puncture resistant sole
- Heavy duty zipper with “Slip Lock”
- Protective heel cap

SIZES 4 to 14

Zipper Slip Lock

EDGE Neo3 Tropic Low Boot (Edg-0019)

A top choice among active warm water divers, these tough tropical boots provide protection and foot support.

- 3mm Superior Stretch Nylon II Neoprene
- Durable traction sole
- Glued & sewn seams
- Puncture resistant sole
- Protective heel and toe cap

SIZES 4 to 14

EDGE Nano Regulator System

EDG-0570

Small compact yet rugged designed regulator with an Edge Flex hose.

- Yoke connector
- Heavy duty first stage
- 1 HP port
- 3 LP ports
- Edge Flex LP regulator hose
- Compact second stage
- Black/Gray Composite Silicone Softbite mouthpiece

EDGE ELEMENT JACKET BCD (EDG0590-XX)

The Edge Element BCD is designed to be the perfect BCD for new divers. The Element is an excellent BCD for exploring their new past time and gives them the benefits of personal BCD ownership without breaking the bank. Dive Centers will find the Element's rugged simplicity, user friendly features like Octo Pocket and extra D-rings make it the perfect rental or training BCD.

- Easy to use Octo Pocket.
- 5 Strategically placed Stainless Steel D-Ring Attachment Points.
- EZ-Connect Quick Release Tank Strap.
- Edge Mini Inflator with rubber LP inflation hose.
- Two squeeze to release 10 lb. integrated weight pockets.
- Two easy access 5 lb. rear trim weight pockets with velcro and buckle closure.
- Constructed of 420 Nylon for durability and minimal weight.
- Lift Capacity of 27 to 45lbs depending on BC size.
- Padded backpack with carry handle.
- Adjustable Waist Cummerbund.

HOG PRO HYBRID BCD (HOG- 90959-XX)

The HOG PRO Hybrid BCD is designed to meet the demands for new, advanced or professional divers. Instructors and Dive Masters will find this unit a real pleasure with perfect positioning both underwater and at the surface with students or charter divers. The PRO incorporates the benefits of a Back-Inflate and Jacket style BCD in one unit. The Pro gives divers a very open and un-restricted fit similar to a BP/W. With features normally only found on much higher priced BCDs value is priority one. **Great styling too !**

- 6 Strategic D-Ring Attachment Points plus right should loops for extra use.
- Swivel Shoulder straps with push Quick Release..
- Mini Inflator with rubber LP inflation hose and Pull Dump feature.
- Right shoulder and Lower torso Low Profile air releases increase diveability.
- Pull Dump release 10 lb. integrated weight pockets.
- Two easy access 5 lb. rear trim weight pockets with velcro and buckle closure.
- Constructed of 420 Nylon for durability and minimal weight.
- Lift Capacity of 27 to 45lbs depending on BC size.
- Padded backpack with carry handle.
- Adjustable Waist Cummerbund.and confort adjustable Belly Buckle.

Alternate Air Source/Safe Seconds

As a diver you depend on your backup safe second to function reliably whenever you need it. For this reason we have put the same effort and attention into designing and building our EDGE backup safe second stages. Should you ever need your EDGE safe second you can count on it delivering air as smoothly as your other EDGE and HOG regulators.

HOG "Z" Octopus (HOG-1809)

- Pneumatically Balanced for effortless breathing
- Chrome plated brass and plastic air barrel reduces weight and cost
- Yellow silicone front purge cover for cover durability
- External breathing resistance adjustment port and multi position air flow control vane
- 40 inch Hi-Vis Yellow EdgeFlex hose
- Black/Yellow composite silicone softbite mouthpiece

Specifications:

Size: 7cm tall x 12.5cm wide x 6.8cm deep

Weight: 12.6oz / .35kg

Uses Annual Service Kit: HOG0238

HOG Rec-Tek Octopus (HOG-0504)

- Pneumatically Balanced for effortless breathing
- Chrome plated brass and plastic air barrel reduces weight and cost
- Yellow soft touch silicone front cover for purge ease and cover durability
- External breathing resistance adjustment port and multi position air flow control vane
- 40 inch Hi-Vis Yellow EdgeFlex hose
- Black/Yellow composite silicone softbite mouthpiece

Specifications:

Size: 7cm tall x 12.5cm wide x 6.5cm deep

Weight: 12.2oz / .35kg

Uses Annual Service Kit: HOG0238

EDGE "NANO" Octopus (Edg-0571)

- The perfect no frills octopus for any recreational dive kit !
- Small compact design with a 36" braided lexible hose.

Specifications:

Size: 5cm tall x 10cm wide x 5.5cm deep

Weight: 8oz.

EDGE "EGRESS" Inflator Octopus (Edg-2077)

- Attaches to any BCD corrugated hose with a 1 inch diameter
- 26 inch Hi-flow quick disconnect low pressure regulator hose included
- Soft push purge cover located at end of unit

Specifications:

Size: 12cm tall x 6cm wide x 6.5cm deep

Weight: 13oz / .368kg

Uses Annual Service Kit: EDG0243

HOG & EDGE Instruments

HOG and EDGE Instruments are built with precision and quality. They deliver a durable and reliable product that will withstand all the varied environments and conditions you might submit them to. Offered with luminescent white faces or black faces using Hi-visibility luminescent indicator markings.

 - BAR graduations = 0-300 bar (2in&2.5in) 10 Bar 0-400 Bar (1.5in)
 - PSI graduations = 100 psi (0-5000 psi)
- HP Spool with o-rings included
- Oxygen compatible up to 100% at 2400psi out of box
- Max Suggested Depth: 200ft 1.5in & 300ft 2in & 2.5in

HOG Bungee Mount Compass 0235 and 0397

- Side and top reading compass design with Extra long elastomeric bungee cords

0397 is a taller compass

- Dual rotating index marks for easier reciprocal navigation with Luminescent glow in the dark internal dial
- Pro Bungee Mount Version:
 - Taller profile
 - Resists tilt lock

HOG Sport Compass with Wrist and Hose Mount

EDG-2060

- Northern Hemisphere compass with a rubber boot and wrist strap
- Top & side reading
- Ratcheting bezel
- Dual rotating index marks for easier reciprocal navigation
- Luminescent glow in the dark internal dial

HOG First Stages

The D series (Diaphragm) regulators are designed and built to provide proven performance and reliability at affordable pricing. They are based on time tested designs with proprietary improvements that make them even better but with a price point that beats all others.

HOG 1st stages have become the Go-To regulator of choice for technical and recreational divers alike.

HOG continues to innovate, improve and bring the users of our products greater breathing performance.

Whether purchasing our first stage as a standalone unit, or as part of our Regulator Builder packages, you won't be disappointed with any of our fine D series balanced diaphragm 1st stage regulators.

D3 Yoke Sealed

D3 DIN Sealed

D3 SEALED First Stages DIN: HOG-0376 YOKE: HOG-0382

D3 first stages are our finest diaphragm regulator to date. The D3 takes the best features of the D1 and D2 and adds even more performance. This new first stage can meet all the needs and desires of the most demanding exploration focused tech diver, while still providing a value that exceeds the competition.

2014 Scuba Labs Testers' Choice

Choose 300 Bar DIN or Yoke Connections

- Environmentally sealed for contaminated, salt or cold water use
- Constructed of both Trivalent-Chrome and Black Zinc Chromate Plated Brass
- High Performance Low Profile Balanced Diaphragm 1st Stage
- 5 LP Hose Ports on compact swivel, 2 HP Hose Ports

Specifications:

Size: 9.0cm tall x 3.75cm wide x 7.75cm deep (DIN Sealed Unit)

Weight: 1lb 9.6oz / .73kg

- Uses Annual Service Kit: HOG0395

D1X SEALED First Stages YOKE: HOG- DIN: HOG-

The D1X 1st stage was the first balanced diaphragm regulator offered by HOG.

- Environmentally sealed for contaminated, dirty, salt or cold water use
- Constructed of Black Zinc Chromate Plated Brass
- High Performance Balanced Diaphragm 1st Stage with Turret.
- 5 LP Hose Ports on compact swivel, 2 HP Hose Ports

Specifications:

Size: 9.0cm tall x 3.75cm wide x 7.75cm deep (DIN Sealed Unit)

Weight: 1lb 9.6oz / .73kg

- Uses Annual Service Kit: HOG-0239

D2 First Stage NON-SEALED YOKE: HOG-1702

The smaller form factor D2 1st stage was the second balanced diaphragm regulator offered by HOG.

- Constructed of Black Zinc Chromate Plated Brass
- High Performance Low Profile Balanced Diaphragm 1st Stage
- 4 LP Hose Ports, 2 HP Hose Ports

NOTE: D-2 Seal Kit available for Yoke D-2 at extra cost..

Specifications:

Size: 7cm tall x 4 cm wide x 8.5cm deep

Weight: 1lb 6.4oz / .82kg

- Uses Annual Service Kit: EDG0359

D2 Yoke Non-Sealed

Zenith Second Stage

Black or Smoke

Classic 2.0 Second Stage

The new HOG Zenith is the next evolution of the original HOG Classic 2nd stage.

It's diver adjustable and pneumatically balanced. The Zenith utilizes improved materials and a more advanced cover design. These improvements provide greater performance, ease of use and durability while still beating the competition in terms of price and value. With improved exhaust ports, new purge assembly and current dispersion front cover, make the Zenith reach new levels of performance while creating a striking image.

Styling that is sure to catch the attention of your fellow divers.

Available in Black or Smoke Black: HOG-0381 Smoke: HOG-1701

- Multi-position air flow control lever and deflection vane.
- 2oz impact and crush resistant composite regulator case.
- Current dispersing front cover with soft touch silicone purge.
- Composite Ergonomic Silicone Mouthpiece.
- Improvements for 2016
 - Teflon impregnated internal components
 - Micro tune external adjustment knob
 - Redesigned exhaust valve cover

Classic 2.0 2nd HOG-1709

- Ideal for the budget conscious diver who wants affordability, durability, performance and reliability above all.
- Full Trivalent Chrome Air Barrel retains heat and moisture in cold water.
- Pneumatically balanced for smooth easy breathing.
- External breathing resistance adjustment knob.
- Multi position air flow control lever and deflection vane.
- 2oz impact and crush resistant composite regulator case..
- Composite Ergonomic Silicone Mouthpiece.
- Improvements for 2018
 - Teflon impregnated internal components
 - Micro tune external adjustment knob
 - Redesigned exhaust valve ports

Regulator Set D3 Sealed 1st Stage and Zenith 2nd With 28in EdgeFlex Hose

Designed for recreational and tech divers using either Yoke or DIN valve configurations. Made to dive in any cold, dirty or salty environment!

Includes:

- Zenith 2nd stage
- 28 Inch EdgeFlex Hose
- D3- Yoke or DIN Sealed 1st Stage

Total Buoyancy Control Package Builder

The new Total Buoyancy Control System is designed to be the perfect harness for divers of all types and diving styles. Customize this Rec-Tec system to fit your needs.

The TBCS (HOG-TBCS-PKG) can be built or changed with your choice of diving in mind.

Choose a light weight Flex Soft Plate (sm or std) perfect for travel or the Alum. hard plate if you like. The SS plate is an upgrade choice.

Then select either the Basic HOG Harness or the Deluxe Flex Harness (SIZES: XS-SM, MED-LRG and XXL-XXXL) with multiple adjustment and attachment points plus an assortment of custom or traditional harness hardware.

Next select your wing, either the 23lb or 32lb bungee wing.

Then select either a pair of Lrg 10lb or Sm 5lb quick drop weight pockets. You can also add a set of small pockets for trim to your system.

Then choose your tank straps; Plastic or SS cam buckels or the SS Quick Fits straps. You get two...

Choose a 1.5 or 2" Crotch Strap.

Make it fit you like a glove and offer you the utmost in performance and comfort.

The next few pages includes details of all the items listed above for your TBCS (HOG-TBCS-PKG)

- **HOG Deluxe Flex Harness Softplate (HOG-0527)**
- This is the perfect beginning to a travel BCD. Soft and comfortable back padding. Side bolsters that hold you firmly but allow for lots of movement and freedom.
- **(Standard or Small)**

HOG Deluxe Flex Harness (HOG-0521)

The Deluxe Flex Harness is designed to be the perfect harness for divers of all types and diving styles.

- Works equally well with hard back plates or the Flex Soft Travel Plate
- Quick release shoulder straps for easy donning and doffing
- Moveable chest strap for optimum positioning or removal
- Custom designed Hog Tech Tri-glides for efficient gear streamlining
- Custom Waist to Shoulder Sliders and Swivel connections
- Hogarthian or H-Harness configuration without any loss of performance
- Fully integrated with other HOG Buoyancy Control Products
- Does NOT include Crotch Strap. (
- **Three Sizes Available:**
- **XS-S, MD-XL and XXL-XXXL**

- **HOG 1.5in Soft Webbing Crotch Strap with Stainless Steel Ring HOG-0525**

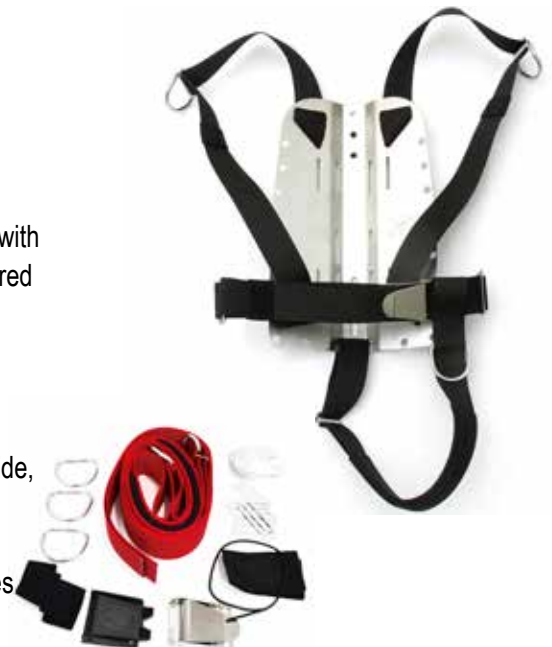

- **HOG 2in Soft Webbing Crotch Strap with Stainless Steel Ring. HOG-0526**

HOG Hogarthian Harness (HOG-0147 R or B)

The Hog Basic Harness is a solid purchase at a great price. The package comes with everything in the photos, except for the backplate. The strap colors are offered in red or black.

Includes:

- Nylon webbing harness (Continuous with S/S grommet at center and tubular webbing sleeves)
- Nylon webbing crotch strap (Sewn-in scooter ring, rear bent D-ring and belt slide, and abrasion sleeve)
- 2 bent D-rings • 1 straight D-ring • 5 serrated belt slides
- 1 S/S belt buckle • 4 neoprene elastic bands • 2 tubular webbing sleeves
- 1 bungee cord loop { 10 ft | 3 m } of #24 cave line
- Assembly instructions

HOG Back Plates

The HOG back plate is designed to provide comfort and stability when using single or double cylinders. The stainless steel backplate is negatively bouyant so its a good choice for divers wanting to reduce weight from their weight belts. For those that travel the Aluminum model is the better choice. Both plates feature a multitude of attachment holes, several tank strap mounting locations and a bead blasted finish. Their design makes these plates stand outs.

Aluminum Back Plate (HOG-0092 R or B)

- Red metallic or Flat Tech Black Finish w/HOG laser etched logo

Specifications

Size: 26cm wide x 40cm long x 6cm deep

Stainless Steel Back Plate (HOG-2039)

- 316 Stainless Steel
- Bead blasted Silver Finish w/HOG laser etched logo

Specifications

Size: 26cm wide x 40cm long x 6cm deep

Weight: 4 lbs 12.8oz / 2.177kg

HOG-STA (Single Tank Adapter HOG-0089)

- 4 Tank strap mounting slots options.
- HOG logo laser etched Trivalent Chrome plated 316 SS
- Attachment bolts and hardware included

Specifications

Size: 23cm wide x 38cm long x 2.5cm deep

Weight: 15oz / .425kg

HOG Backplate Back Pad (HOG-0050)

- Designed to make your backplate more comfortable
- Does not include grommet screws
- Rear SMB / Lift Bag storage pocket

HOG Wings

HOG Wings are designed with not only affordability in mind, but also performance and durability. The 360 degree wing shapes provide the diver ideal body positioning in the water without the worry of air trapping commonly associated with horseshoe shaped wings. In addition the multiple size offerings allow the diver to select the wing size and lift profile most appropriate to their needs.

HOG S-32 Bungee

- 32lbs of lift, 360 degree circular wing design
 - 840 denier All Black or Black w/Red trim Nylon protective outer cover
 - Replaceable 420 Hi-tenacity denier TPU coated inner air bladder
 - 18inch / 46cm rubber corrugated hose
 - 28inch / 71.12 cm low pressure Rubber Inflator hose
 - 3 sets of 11 inch on center mounting holes
 - Integrated soft side single tank mounting plate
 - Low profile classic pull dump – located on left inside hip
 - Inflator with rubber hose included
 - Has tabs for installing bungee cord to keep bladder streamlined
- Comes with Bungee and clips.

HOG-0528 Red/Blk

HOG-0529 Blk/Blk

Extra Bungee Cord HOG-0530

- **RE Dump Valve w/ 16in Pull Wire for post-2015 wings and BCDs. Can be used on Total Buoyancy Control Package for those wishing to have a shoulder dump valve.**
- Note: only fits HOG wings produced after 2015 with a translucent male threaded connector having 4-5 fine threads. Any other older HOG wing will require a different connector to function properly.

HOG S-23 HOG-0121-Black Only

- 23lbs of lift, 360 degree circular wing design Not for use with Steel Tanks.
- 840 denier Black w/Red trim Cordura Nylon protective outer covering
- Replaceable 420 Hi-tenacity denier TPU coated inner air bladder
- 18inch / 46cm rubber corrugated hose
- 28inch / 71.12 cm low pressure Rubber Inflator hose
- Single set of 11 inch on center mounting holes
- Integrated soft side single tank mounting plate
- Low profile classic pull dump – located on left inside hip
- Inflator with rubber hose included

HOG Weight Pockets

- Replacement weight pockets for HOG and other harness BCDs with 2" webbing.
- Zippered top.
- Sold in pair:
- **10 lb Large HOG-0523** or **5 lb Small. HOG--0522**

HOG Reflective Tank Decals

Standard Inflator

- Fits 1" in corrugated hose
- HOG-2101

EDGE Mini Inflator

- Fits 3/4" in corrugated hose
- HOG-0392

HOG Grommet Screws

- Used for attaching various accessories to a harness or backplate
 - Designed to fit through a 3/8" hole
 - Available in
- Plastic HOG-0512
 Chrome Plated Brass HOG-0511

HOG DL-20 Push Button ReChargeable Light 1000 Lumens

For divers who wish to see the power they have left at a glance.

- Push Button Surround Shows Level of Charge
- Small Compact size but High Power Beam
- Waterproof to 300'
- Includes
- 1ea. 18650 Rechargeable battery
- 1ea Charger
- 1ea Wrist Lanyard

EDGE DL-19 Rechargeable 1100 Lumens

For divers who prefer the durability of a machined aluminum light body and want a small bright light, we offer the DL-19.

This light puts out just under 1100 lumens and is only slightly larger than the 315 Mini. It has 12 Degree Spot beam and

70 degree appeture

- Black powder coated triple o-ring sealed aluminum head and body
- 1100 Lumen output single Cree Xm-L U2 LED
- Includes 1-18650 3.0-4.2v 1200mAh Lithium Ion rechargeable battery
- Included 1 18650 Li-Ion Battery Charger
- Lanyard loop at rear of body

- **Our Most popular Light by far !**

EDGE DL-9 1000 Lumens

For divers who prefer a larger light that uses easy to source batteries.

- Machined triple o-ring sealed aluminum head and body covered in rubberized armor.
- 1000 Lumen output single Cree Xm-L U2 LED
- Powered by 3 C-size batteries (not included)
- Lanyard loop at rear of body
- Burn time: Approximately 12 hours depending on water temprature.

EDGE DL-15 315 Lumens Mini

- 1 x CREE R4 LED
- 33m Lens x 25mm Barrel x 136mm Length
- 315 Lumens
- 2 x CR123A Batteries
- 70m Depth Rating (230ft)
- 200m Lighting Distance (650ft)

- Small handy light

Hunter QR EDG-0568

Stainless Steel Dive Knife is made of 420 Stainless Steel and includes quick adjust knife straps. The thermoplastic molded handle fits comfortably in gloved or bare hands. Specially designed quick adjust scuba knife straps eliminate the inconvenience of older style manual buckles. This dive knife easily comes apart for cleaning and maintenance.

- One piece 420 Stainless Steel blade
- Completely disassembles for cleaning
- Serrated top edge and built-in line cutter
- Tank Banging Pommel
- Comfortable handle with lanyard attachment point
- Two depth compensating leg straps
- Blade Length: 5"
- Overall Length: 9.5"
- Black, Gray and Yellow available

Assassin Quick Lock Knife EDG-0565

The Assassin Quick Lock Knife makes the perfect accessory knife. Small enough to mount to your BCD or strapped to your arm or leg. Made of 420 stainless steel with locking sheath, Straps included.

- Length 7-1/2" with 3-1/2" Titanium Serrated blade
- Locking sheath in Gray/Black only

Traveler EDG-0566

High quality essential tools for all divers. Made of resistant 420 stainless steel. Tough quick release sheath design with multiple attachment options. Attaches with included backing plate or optional straps.

- 3" blade
- 420 stainless steel
- Locking sheath
- Serrated blade

Stiletto Spearfishing Knife EDG-0564

- 4-1/4" (108mm) Stainless Steel 420 J2 pointed tip blade
- 2-5/8" Serrated edge
- Easy disassembly for maintenance
- Quality rubber straps

SAFETY SISSORS EDG-0599

EDGE Deluxe Mesh Boat Duffel EDG-0562

- Nylon and Heavy Duty PVC Mesh Construction
- 29in L x 18in W x 9in D
- Removable shoulder strap included
- Carry handles on three sides
- Compression Straps size bag adjusted to contents
- Wide double pull PK zipper in large U-shape for easy packing and removing of gear
- Weight Empty: 6.05 lbs.
- Can be used as a portable rinse station

THIS IS ONE TOUGH BIG DIVE BAG !

EDGE Transporter 3 Roller Bag EDG-0423

- 1000 Denier Nylon Outer and 210 Denier Nylon Inner Liner
- Plastic reinforcing on inner back and bottom of bag for rigidity and durability
- Lifting handles on each bag end
- Non-Corroding plastic zippers
- Replaceable Roller Blade style wheels for easy and smooth rolling
- 12 Inch extendable pull handle
- Weight Empty: 6.05 lbs.
- Dimensions: 30in L x 27in W x 11in D

EDGE Roller Mesh Duffel

EDG-0561

- Mesh Roller Bag 29.5"(L) x 14"(W) x 13.6"(H)
- Adjustable shoulder strap
- One top and two side carry handles
- Carry handles on three sides
- Material: Heavy duty PVC Mesh/Nylon
- Heavy duty wheels and zippers

Heavy Duty Wheels

Retractable Handle

EDGE Mesh Roller Backpack EDG-015

- PVC coated mesh backpack bag with drawstring and zipper entry
- Lightweight PVC mesh backpack with side pocket
- Adjustable shoulder straps ensure a comfortable fit.
- Side pocket for storing personal items
- Strong, rugged wheels
- Top handle makes pulling bag behind you easy

EDGE Regulator Bag

EDG-0005-xx

- Padded regulator bag
- Top carry handle
- Side pocket
- Shoulder strap.
- Made of Cordura Nylon
- Measures 11 x 11 x 4 Inches

EDGE Mesh Back Pack Bag EDG-017

- Extremely versatile mesh backpack bag with drawstring and zipper entry
- Light weight mesh backpack with Integrated soft handle, for easy carrying
- Adjustable shoulder straps ensure a better fit
- Internal pocket to store your personal items

EDGE Dive Flag Duffle Bag

EDG-016

- PVC coated mesh backpack bag with zipper entry
- Dimensions: 18in x 24in
- Top carrying handle

EVERY DIVER NEEDS A MESH BAG !

HOG Manifolds

HOG manifolds are double o-ring sealed on both sides of the cross-bar. HOG Manifolds are more durable and safer compared to the old-style metal-to-metal seal manifolds. Our manifolds have a 180mm isolation cross-bar that fits both 7.25-inch and 8-inch diameter tanks with a 3/4 inch neck. Manifolds are available in 200 or 300 bar. The 200 bar manifolds can be converted from yoke to DIN by removing the included insert with an allen wrench. This manifold is our most popular since yoke, 200 bar, or 300 bar regulators can be used with it. Shock absorbing ribbed rubber knobs are rugged, yet easy to manipulate. All manifolds come standard for 3500 psi service pressures. Valves come with Viton o-rings, oxygen compatible lubricants and are Nitrox ready.

- Available in 200 (**Hog-2065**) or 300 (**Hog-2064**) bar
- 0.750-14 NPS (3/4 NPS)
- 3500psi service pressure
- Nitrox ready
- 180mm isolation bar
- 4.9 lbs (2.3kg)

Left hand

HOG Pro Valves

HOG Pro scuba valves are satin finish chrome plated brass and are Nitrox Ready. Outlets are standard 200-Bar DIN. Inlets have standard 0.750-14 NPS (3/4 NPS) neck threads for use with all modern aluminum and steel SCUBA tanks and include a threaded 'dip tube' with hex opening for easy installation. Valves have a 5250 psi burst disk.

Right (0360) or Left (0361)

Right hand valves have the on/off wheel on the right side looking at the tank outlet or oring side. The Left side is the valve typically sent with new tanks.

Intermediate Pressure Checker

- 300 PSI Intermediate Gauge
- Compact and lightweight
- Plugs into any standard low pressure inflator hose (**Edg-2093**)

Tank Pressure Checker

- 5000 PSI Tank Pressure Checker
- Screw Button Bleed Valve
- Protective Boot
- Available in Din (**Edg-2094**) or Yoke (**Edg-2084**)

EDGE Air Nozzle (Edg-2086)

Easily connects to any standard LP inflator hose.

- Includes Split ring and quick snap.
- Dual purpose Tire inflator and Air Nozzle (**Edg-2080**)
- Metal end fits Standard Tire adaptors with Schrader valves

EDGE Fusion Wetsuit

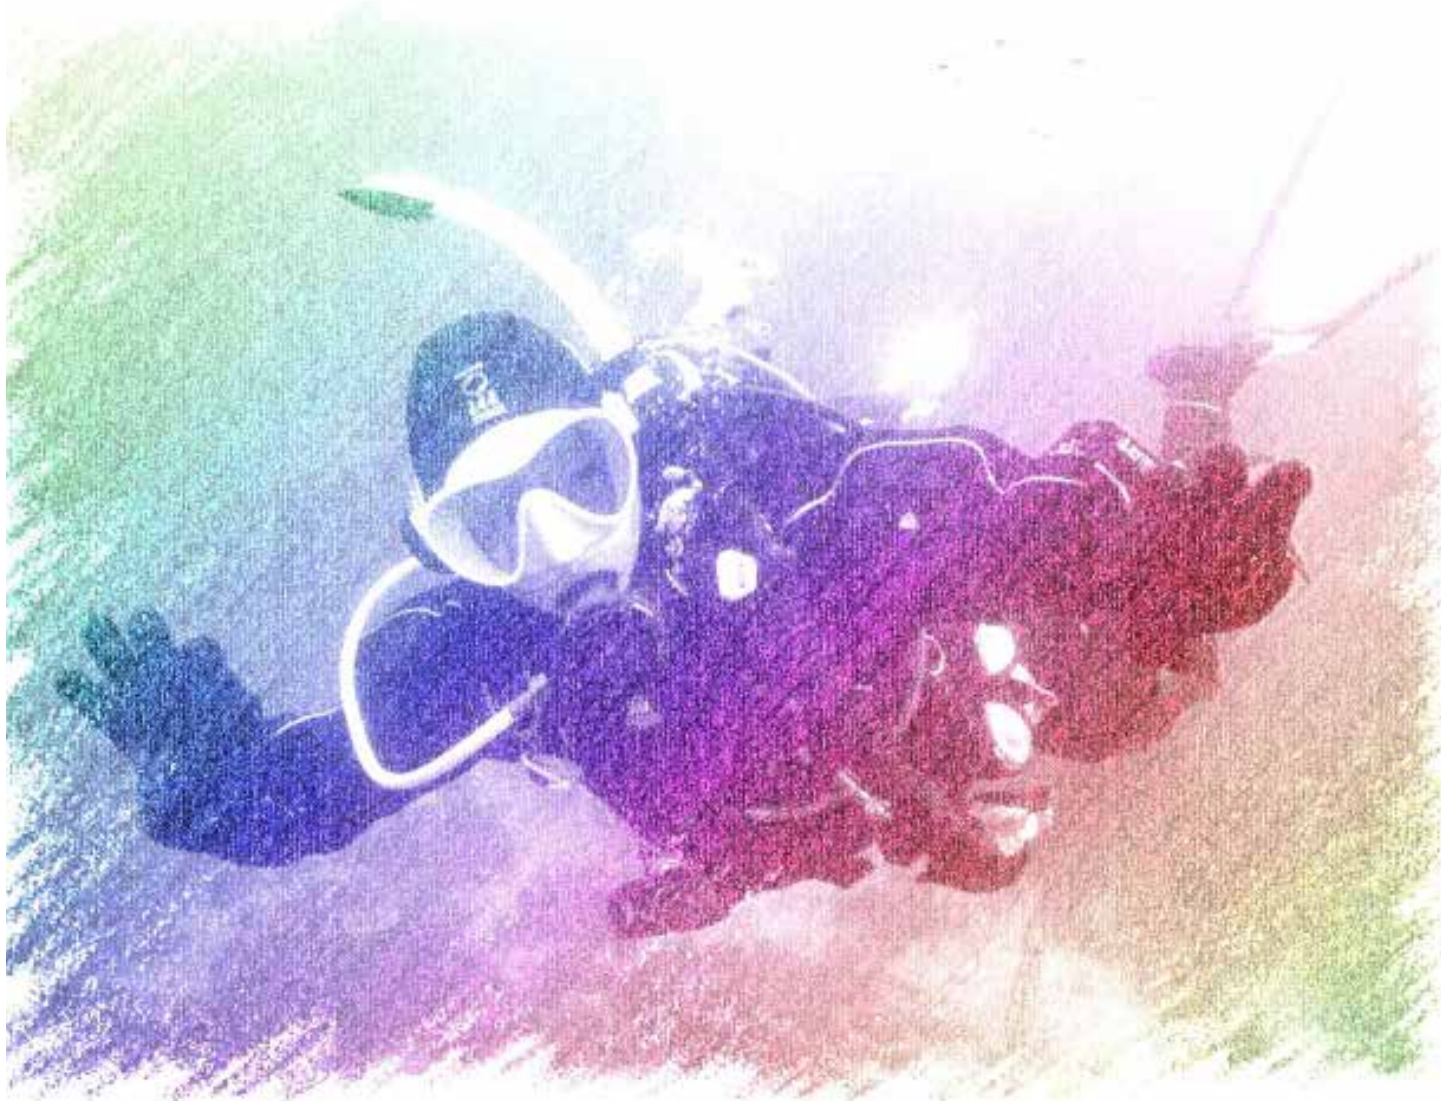

The Edge Fusion 3mm Full Wetsuit combines the best materials, desired features, and anatomically correct fit to keep the diver warm and safe from hazards. The Edge Fusion 3mm Full Suit has a pattern that was developed over 2 years of extensive research, design, and testing; this assures the Fusion Wetsuit will correctly fit a wide range of body types and sizes. The Fusion is constructed of the highest quality neoprene and materials and uses the most robust construction methods to assure trouble free years of use. The Edge Fusion Suit offers all the features and benefits of a high priced high performance 3mm Full Wetsuit at a price that is less than other entry level suits of thinner material and inferior construction.

Construction

- Superior Stretch and Suppleness 3mm full body thickness Nylon II Neoprene
- Flat lock stitching for trouble free highly durable seams.
- Ykk Zipper with Leash for easy user donning and doffing.
- Adjustable Neck collar with Velcro closure.
- True-fit pattern assures a comfortable and functional fit for most body shapes and sizes.
- Suggested Temperature Range of Use: 70 degrees and up.

See sizing chart on page 45
